Budenat® Alkaclean D 448

Highly alkaline disinfectant cleaner

HACCP COMPLIANT
SILICONE-FREE
PERFUME-FREE
DYE-FREE

Area of application

- For surface disinfection in the food industry and in the food processing industry, as well as in the kitchen area and in the healthcare sector, in public facilities, etc.
- For all water and alkali-resistant surfaces, such as walls and work surfaces as well as kitchen and work equipment/machines and floor coverings

Product properties

- Works on the basis of quaternary ammonium compounds
- Cleaning and disinfection in one step
- Good grease and dirt dissolving ability
- Effective against bacteria (including Salmonella enterica, Listeria monocytogenes), yeasts (including Sacharomyces cerevisiae), moulds and enveloped viruses
- Spectrum of activity: bactericidal, yeasticidal, fungicidal, limited virucidal
- Short exposure times
- Perfume and dye-free
- Meets the requirements within the framework of an HACCP concept

Application and dosage

- First remove coarse dirt from the surface. We then recommend using suitable methods (e.g. wet wiping, non-mechanical methods) and rinsing after drying or after the exposure time has elapsed.
- Recommended use for surface disinfection (spectrum of effects/exposure times):
- bactericidal, yeasticidal – EN 1276, EN 13697, EN 16615, EN 1650: with and without mechanics 5 min. 1.0 %
- fungicidal – EN 13697, EN 1650: without mechanics 15 min. 3.0 %
- limited virucidal – EN 14476, EN 16777: without mechanics 5 min. 5.0% or 15 min. 2.0%
- For activity against food strains (Salmonella enterica, Listeria monocytogenes and Sacharomyces cerevisiae), apply the product without mechanical action at a dilution of 1.0% and let it act for 5 minutes. For surfaces that won't come into contact with food, allow the product to dry. Rinsing with water is required only for those surfaces that will come into contact with food.

100 - 500 ml
/ 10 l water

- Apply fresh application solutions and consume them within 24 hours at the latest.

Note

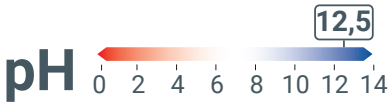

- Ingredients: 100g contains: 10 g Alkyl(C12-16)dimethylbenzylammonium chloride
- Surfaces that come into contact with food or the skin must be rinsed with drinking water after disinfection.
- Absorb unintentionally released product with liquid-binding material (sand, diatomaceous earth, universal binder).
- Use biocides safely. Always read the labelling and the product information before use.
- Do not allow the product to enter the sewage system or water bodies undiluted.
- Contribute emptied packaging to recycling.
- Use biocides safely. Always read the labelling and the product information before use.
- Consume opened containers within 9 months.
- Please note the expiry date on the original packaging.
- Changes or variations in colour of the product do not impact on the quality. The product image may differ in colour and shape from the original.
- **Safety:** Hazard statements and safety precautions can be found in the relevant safety data sheet, which is available at www.buzil.com.
- **Storage:** Always keep containers closed. Store at room temperature in the original container. Consume opened containers within 9 months.
- **Environmental:** Feed residual emptied containers to the dual system. For detailed information see environmental information.

Further information

- **Product colour:** colourless
- **GISBAU code:** GD 40
- **UFI code:** 11X0-803S-700J-E426
- For professional use only.

Sales units

- D448-0010: 1 x 10 l canister

Date 14.01.2025
