Buz® Grillmaster G 575

Grill & oven cleaner, highly alkaline

HACCP COMPLIANT
VOC FREE
VOC SOLVENT-FREE
SILICONE-FREE
PERFUME-FREE

Area of application

- Gastronomy and commercial kitchens
- Alkali-resistant ovens, grills and convection ovens

Product properties

- Self-acting grill cleaner
- With high fat emulsifying capacity
- Spontaneous removal of burnt-in dirt
- Free from perfumes
- Removes heavy grease, oil and protein encrustations as well as grilling, baking and frying residues
- Halal certified according to © HALAL CONTROL
- Meets the requirements within the framework of an HACCP concept
- Suitable for application in the foam gun

Application and dosage

- Always use cold water.
- Apply to the surface, let it take effect, and clean the surface with a suitable cleaning cloth.

250 - 1.000 ml / 10 l water	1:3 - 1:5 with water

- Apply fresh application solutions and consume them within 24 hours at the latest.

Note

- Apply only on cold surfaces.
- Before processing, turn off heat sources (hotplates, grill plates, oven).
- Not suitable for alkali-sensitive materials such as aluminium or non-ferrous metal.
- Surfaces or objects that come into direct contact with food must be cleaned of cleaning residues by careful rinsing with water.
- Changes or variations in colour of the product do not impact on the quality. The product image may differ in colour and shape from the original.
- **Safety:** Hazard statements and safety precautions can be found in the relevant safety data sheet, which is available at www.buzil.com.
- **Storage:** Always keep containers closed. Store at room temperature in the original container. Consume opened containers within 9 months.
- **Environmental:** Feed residual emptied containers to the dual system. For detailed information see environmental information.

The data in our product information sheets are based on our experience and careful investigations, and correspond to our present state of knowledge. We are, however, not able to examine and influence in detail the varying conditions for usage and materials, and those at premises where products are to be used. For this reason, we can only provide general information on usage. The quality of the work depends on expert assessment of the premises where products are to be used and how they are in fact employed by the user. In the case of doubt, the latter is obliged at all times to test the compatibility of the material to be treated with the Buzil product on an inconspicuous area or to obtain relevant advice on application technology. Liability for incomplete or incorrect data in our product information sheets shall only be assumed in cases of negligence caused by gross negligence or intent; any claims arising from the Product Liability Act shall remain unaffected. All previous product information shall lose its validity through the above listed product information.
